This email is your AFTRCC coordination.

This coordination includes this header information, DOD Area Frequency Coordinator comments and AFTRCC comments. These messages must not be separated.

This coordination is advisory only and not binding on the FCC. Applicants are advised that this coordination does not constitute a judgment that the frequency(ies) is best suited for the applicant's purpose nor that the frequency(ies) is exclusive to the applicant. Flight Test frequencies are shared and may require scheduling with other users.

In return for AFTRCC's processing of the applicant's coordination request, the applicant agrees to release and hold harmless AFTRCC, its officers, directors, agents, members, and representatives from any claims, losses or expenses that may arise from the use of the frequency.

This coordination is not an authorization to transmit. A copy of this coordination must accompany application to the FCC.

Wayne:

MIDLANTAFC does not object to the use of the lower L-band channel usage with the following limitations and restrictions:

- 1) Non-interference basis to all Flight Test telemetry missions and no protection afforded to these operations.
- 2) Unprotected NIB operations are under an XT or MO station class only. The station class listed on the official FCC STA must be XT or FL or MO.

3) STOP BUZZER POC provided with cell and land line contact information that can cease any and all emissions if EMI is detected.

Thank you

Scott
