DISMISSED-WITHOUT PREJUDICE

Dear Daniel Mittleman,

This refers to application, File No. 0859-EX-CN-2021, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. The application is dismissed because NTIA and NASA objected to authorize Brown University the use of equipment for long term operation regard to the frequency band 97.5-103 GHz with emission designator 2G00K10. It is recommended Brown University should ensure that the operational use of the equipment be conducted in appropriately allocated frequency bands that are authorized to transmit.

Anthony Serafini
