

Topic: C Speed – Radiation License Updates

Mr. Hung Le,

Mr. Sangani instructed me to contact you regarding some radiation licenses which C Speed no longer needs. The summary is below and I've also submitted these notes as attachments for the associated Application File Number / Confirmation Number on the FCC site.

---

**"Arnegard"**

**0442-EX-CN-2020 / EL764277 &  
0940-EX-CN-2020 / EL396162 &  
0958-EX-CN-2020 / EL245120:**

This location was originally identified as being available for our radar system. We later learned that this was not the case from the State of North Dakota. We no longer have a need to radiate at this location.

C Speed radiation license can be canceled and pending applications can be ignored.

**"Watford"**

**0443-EX-CN-2020 / EL163359:**

Radiation license submitted on speculation that this was going to be a needed site. At this time, this site is not needed.

C Speed radiation license can be canceled.

**"Tioga"**

**0444-EX-CN-2020 / EL138471:**

Radiation license submitted on speculation that this was going to be a needed site. At this time, this site is not needed.

C Speed radiation license can be canceled.

**"Killdeer"**

**0445-EX-CN-2020 / EL526617:**

Radiation license submitted on speculation that this was going to be a needed site. At this time, this site is not needed.

C Speed radiation license can be canceled.

-----

To summarize, at this time, C Speed has an interest in the following 2 sites. Applications have been submitted for these sites. Going forward, C Speed will submit *mod requests* when additional frequencies are needed to an existing site rather than new radiation applications.

**"Williston DOT Tower"**

**0446-EX-CN-2020 / EL388210 &**

**0939-EX-CN-2020 / EL512344 &**

**0956-EX-CN-2020 / EL751649:**

The FCC has already granted C Speed radiation license for 2900-3100 operation, we are waiting for approval from the FCC for 2730 & 2888 operation.

**"Williston Basin Airport"**

**1007-EX-CN-2020 / EL886992 &**

**1008-EX-CN-2020 / EL606633:**

We have submitted radiation applications for 2900-3100 and 2883 operation.

-----

Feel free to contact me directly with any questions you may have.

Best,  
Mike
