To Whom It May Concern

Comsat Mobile Communications is a Satellite Communications Company providing Inmarsat service, seeking to commission three Inmarsat-C units for test and demonstration. One of the units will be used immediately in the country of Nigeria in Africa. I understand that I need to obtain local PT&T permission to use the one terminal in the host country. However I am applying to the FCC for permission to use all three terminals in the USA for test and demonstration. We have forwarded our FCC Form 442 to the FCC for a license to operate these units in the domestic US.

Sincerely,

Lilanie Geiger  
Manager Service Development  
Comsat Mobile Communications
