

Supporting Documentation for the Eagles Victory Super Bowl Parade in Philadelphia, PA

Due to the uncertainty of the Eagles Victory Super Bowl Parade and its date, CP has had to delay our filing until 1/30/2018. Please take this into consideration when validating this filing. CP is very aware of the time frames normally needed for its STA filings. Due to the large influx of Media to this possible event, it has rendered other spectrum unavailable to CP to help provide RF equipment to support video coverage of this event. Due to the date uncertainty CP has extended its operational dates to 7 days to cover the week in which the event might be held.

The current plan is to provide a single TX Camera system and backup for the event.
