

Supporting Documentation

CP Communications is providing RF equipment for television coverage of Wrestle Mania at the Camping World Stadium in Orlando. CP has requested two T-Band channels in support of UHF communications within the Stadium area. These two channels will be used to provide Director to talent cueing, Director to Camera Crew and walkie to walkie comms during this event. CP has contacted the Local SBE person for approval of use for these two T-Band channels.

Below is the coordinating approval by the local SBE coordinator

Subject: SBE Coordination for Camping World Stadium [T-Band useage]

Bill,

All local licensees who might be affected by your request have been notified and given contact information for coordination, therefore I am satisfied we have completed the due diligence necessary to coordinate your request. Please contact me if you have further needs or additional information regarding your intended use.

Louis Mueller - SBE Frequency Coordinator - Central Florida
