

Supporting Documentation

Due to a major problem returning our RF equipment from Mexico, all of the RF camera systems going directly to this event have been held at the border from Mexico. All camera systems have to be replaced and in order to accomplish this task the band in which the cameras originally where to be used in is not available.

CP understands that this is a very short time frame for this filing, but due to the emergency this causes for a major Golf event we have no choice but to do a short spaced filing.
