Message:

Dear Mr. Jake Schaffner:

Please provide answers to the following:

1. The receiving earth station antenna gain, beamwidth and azimuth.
2. Is the antenna used to transmit from the space station to the earth station an earth coverage antenna or a narrow beam antenna?
3. Orbital information comprising the equatorial inclination angle in degrees, the apogee in kilometers, the perigee in kilometers, the period and the number of satellites in the system.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 25, 2003 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
