Melissa,

Correct, no changes to the license are required at this time.

Melissa,

Thank you for your email. CRSRA Compliance received your letter and updated the projected launch date for CP-7. A complete pre-launch packet is due no later than 30-days prior to launch. Based on the information submitted a License amendment is not required. However, if you have other updates which change the operational capabilities of the system, please submit your request to CRSRA Licensing. I will flag this email to Licensing, who will contact you regarding the letter dated May 10, 2018. Please remember to copy all correspondence to crsra@noaa.gov, or reach the office by calling 301-427-2560.

Thank you,

Kera Bumbray

Hi Kera,

Does NOAA have record of this update. I thought I could start with you, but let me know if I should send the inquiry to Alan.

Thanks in advance.

Thanks,

Melissa Mullen
