Date: 30 September 2019

To John Bellardo KK6HIT

Dear John,

In response to your coordination request dated 11 September 2019 IARU confirms the frequency coordination for your satellite **Spinnaker3**.

Coordinated frequencies

for up- and downlink 437.150 MHz, with emission designator 7K86F1D, eirp -2dBW;

Planned launch date: summer 2020 (to be confirmed).

Licensing administration: USA

Planned Height and Orbit: apogee 300 km, perigee 300 km, inclination 97 deg, period approximately 1.5 hours.

Earth Command station: N6CP.

IARU has coordinated frequencies in bands allocated to the amateur satellite service. All frequencies in the amateur satellite service are shared frequencies.

Please inform me about the final launch date and the API number as soon as that information becomes available.

Best wishes for a successful project.

Hans Blondeel Timmerman
