Message:

Response Reference 39298 – FCC File No. 0798-EX-CN-2017

You have entered frequency band 5650-5925 MHz with 275 MHz bandwidth (its center would be 5787.5 MHz) on your application. However, on your statement you indicate that the center frequency should be 5764 MHz. Please clarify which one is correct.

The correct frequency band is 5600-5925 MHz with 325 MHz bandwidth. The center frequency should be 5762.5 MHz. I have updated the application to reflect this.
