Re: File Number 0213-EX-CN-2020- Correspondence Number 54254

Dear Mr. Lee,

Please find this correspondence letter in response to your inquiring regarding the Experimental License File Number of 0213-EX-CN-2020 and Confirmation Number of EL614504.

The premise and purpose of the experiment is to test an IoT "Internet of Things" solution for Agriculture purposes. To include Farming and Cattle applications in rural Florida. We will be testing within the county of Bradford Florida and in particular Starke, Florida for Soil Moisture, Temperature, Humidity, Pressure and Location applications.

These tests will be conducted in rural Bradford County where both farming and cattle are both present for each of the applications previously mentioned.

Thank you for your support with the critical test to improve our agriculture industry.

Very truly yours,

David Suarez
