Subject: Additional Information Request

---

Message:

Hello Nimesh,

Hope all is well.

We are filing this application because the FLN 0489-EX-CN-2020 location is shut down because of the COVID 19 and we do not know when the tower location will be available to us and have access to proceed. We located this new location and it is ready to go for us. So we would to proceed at this location.

Thank you as usual for your support with the process, you are always very helpful to guide through everything. I will not ever provide the confirmation number again. Would you like me to repost the narrative without confirmation number? Please advise...

Sincerely,

David
