Subject: Additional Information Request

---

Message:

Hello,

We have uploaded the requested documents. In response to your request to remove exhibits that are no longer applicable, we do not believe that the ELS system provides a way for us to delete previously submitted attachments. However, we have marked all of the files we have just uploaded with the prefix "3 31." Files without this prefix are no longer in effect with the following two exceptions:

- \* Inmarsat Letter of Support
- \* Revised Capella Description of Modification

Please feel free to remove any attachments that are no longer in effect.

Thank you for your assistance.
