1) With respect to Ground Stations 4 and 5, are these transmit and receive (uplink and downlink) data or they only receive (downlink)?

Earth Stations 4 and 5 will each transmit and receive data to and from Capella satellites.

2) Furthermore, are there any ground-stations within the USA in 2-way communication with Capella satellites?

Earth Stations 4 and 5 will be the only ground-stations within the USA in 2-way communication with Capella satellites.
