Re: FCC File Number 0228-EX-CN-2020 -- Notification of Launch of Capella-2 (Sequoia) Satellite

Dear Nimesh,

As required by Special Condition (6) to Capella Space Corp.'s ("Capella") FCC experimental authorization for the Capella-2 (Sequoia) spacecraft, Capella is pleased to notify the FCC that the company's Capella-2 satellite was successfully launched on a Rocket Lab Electron rocket from Mahia, New Zealand on August 30, 2020, and deployed in orbit consistent with the parameters included in Capella's experimental authorization. Contact with and positive control of the satellite has been established.

Sincerely,

Dan Connors
