Richard,

I have confirmed with Sirius XM that the company has no objection to this experimental application. You can supply this email to the FCC as evidence that you have obtained Sirius XM's consent.

Best regards,
Karis

Karis –

As discussed, Caterpillar of Delaware Inc. (CAT) has been directed to coordinate and obtain prior written consent from Sirius XM since the frequency band 2320-2345 MHz is allocated for SDARS services. As discussed, CAT is only seeking to utilize the frequency bands in the 2 GHz band: 2.0-2.31 GHz and 2.35-2.70 GHz – both of which are outside the 2320-2345 MHz band that is allocated for SDARS services.

Once you have confirmed with Sirius XM that there will be no issues, would you please forward the required written consent so that we can advise the FCC's staff.

Thank you for your assistance,

Richard Rubino
