

## **EXHIBIT 1**

### **DESCRIPTION OF MODIFICATION**

Cellco Partnership d/b/a Verizon Wireless (“Verizon Wireless”) hereby requests a modification of its experimental authorization WL2XGI in portions of the Minneapolis, MN and Bridgeville, PA areas. The exhibit to the previous modification (0158-EX-CM-2021, filed July 29, 2021) explained that Verizon Wireless sought to expand testing from 100 MHz to 200 MHz, but errors on the form did not reflect the expanded testing frequencies. This modification solely seeks to correct the frequencies on the accompanying Form 442 to the 3.7-3.9 GHz range contemplated by the previous application.
