

Circuit of the Americas, LLC
STA Application
0723-EX-ST-2012
Frequency Coordination Exhibit
Austin, Texas Formula One American Grand Prix Automobile Race
November 5, 2012 through November 22, 2012

This application proposes the use of unused television broadcast channels and land mobile radio channels in the Austin, Texas area for two-way operational communications, security communications, video production and wireless microphones during the American Grand Prix Formula One automobile race event and for testing prior to the event. An engineering analysis has shown that there are no on-air television stations or low-power television stations on the subject channels within a 50 km radius of the proposed operation area. However, should any television broadcast station report interference during the proposed operations, operation on that channel will immediately cease and not resume unless and until the interference complaint is resolved.

The application also proposes the use of land mobile and Amateur Radio frequencies for video production and for telemetry. The use of amateur allocations in this STA application at have been coordinated with the American Radio Relay League, Incorporated. Land mobile channels to be utilized during the race event have been investigated and monitored by Clear Call Communications, Inc. of Dallas, Texas and found to be unoccupied. Clear Call Communications will be on site during the race and channel monitoring and on-site frequency coordination will insure against any interference. Given the location of these events, it is anticipated that no interference will be caused to any Amateur Radio, land mobile or broadcast auxiliary operations. Use of broadcast channels will be coordinated in advance with the Society of Broadcast Engineers local frequency coordinator for the Austin Texas market. Upon receipt of any complaint of interference from a licensed Amateur Radio user, land mobile licensee or broadcast entity (or otherwise), operation pursuant to this STA will cease on the channel complained about, and will not resume unless and until the interference complaint is resolved satisfactorily to the licensee.

Communications on site should be directed to Mr. Keller McCrary, Clear Call Communications, Inc. at 1-214-533-3700. Other communications can be directed to the office of counsel for Circuit of the Americas, LLC:
