

**Circuit of the Americas, LLC**  
**STA Application – Microwave Channels**  
**1425 -EX-ST-2017**  
**Frequency Coordination Exhibit**  
**Austin, Texas Formula One American Grand Prix Automobile Race**  
**October 18, 2017 through October 22, 2017**

This application proposes the use of certain microwave bands in the Austin, Texas area for terrestrial only, international and domestic video production operation and for data, video short-range, low power transmission and telemetry for racing cars and teams during the American Grand Prix Formula One automobile race event and for testing prior to the event within and immediately surrounding the Circuit of the Americas Race Track. An engineering analysis has shown that there should be no interference to any licensed user of any of the subject bands whatsoever. **This application is similar to prior applications granted by the Commission for the identical event in past years at the same location. See, WF9XYQ, File No. 0724-EX-ST-2012; WG9XAH, File No. 0789-EX-ST-2013, and WH9XYP, File No. 0911-EX-ST-2014, WJ9XCH, File No. 1061-EX-ST-2015 and WJ9XCH, File No. 1258-EX-ST-2016. No interference was reported at any of the prior events whatsoever. This application deletes several bands requested in prior years and adds one additional microwave band, 1880-1900 MHz for DECT intercoms for the McLaren Honda racing team. Otherwise, all frequencies are identical to those granted by the Commission in WJ9XCH in 2016.**

Should any authorized user of the subject bands report interference during the proposed operations, operation on that channel will immediately cease and not resume unless and until the interference complaint is resolved.

Per the Commission's instruction received in 2015 in 1056-EX-ST-2015, Circuit of the Americas will notch out the following frequency bands pursuant to this STA:

- a. 1260-1270 MHz
- b. 1610-1640 MHz
- c. 1660.5-1670 MHz

The application also proposes the use of Amateur Radio frequencies for video production and for telemetry. The use of amateur allocations in this STA application at have been coordinated with the American Radio Relay League, Incorporated. Other channels to be utilized during the race event have been investigated and monitored by Clear Call Communications, Inc. of Dallas, Texas and found to be unoccupied in the vicinity of Austin, Texas and in the immediate area of the Race course. Clear Call Communications will be on site during the race and advance and real time channel monitoring and on-site frequency coordination will insure against any interference. Given the location of these events, it is anticipated that no interference will be caused to any Amateur Radio, government, fixed microwave or broadcast auxiliary operations. Use of broadcast auxiliary channels will be coordinated in advance with the Society of Broadcast

Engineers' local frequency coordinator for the Austin Texas market. Upon receipt of any complaint of interference from a licensed Amateur Radio user, government user, fixed microwave licensee or broadcast entity (or otherwise), operation pursuant to this STA will cease on the channel complained about immediately, and will not resume unless and until the interference complaint is resolved satisfactorily to the licensee.

**Communications on site should be directed to Mr. Keller McCrary, Clear Call Communications, Inc. at 1-214-533-3700. Mr. McCrary will be the Stop Buzzer contact on-site.** Other communications can be directed to the office of communications counsel for Circuit of the Americas, LLC:
