Subject: 1544-EX-ST-2021 pre-coordination data request

---

Message:

The application has been amended to include the FAA coordination consents for the bands 1370-1400 MHz and 9100-9410 MHz. Coordination has not yet been received from FAA for use of the band 8848-9004 MHz. Due to the imminent nature of this event, if the Commission cannot grant use of the band 8848-9004 MHz without FAA concurrence, please grant the remainder of the application and delete the 8848-9004 MHz band. Thank you.
