Jose

From the Cisco license on HF/ VHF / UHF

Below 50 MHz frequencies band , if NTIA has issues it can be removed if it speeds up the process, also we can live with the discrete frequencies in the 150 and 450 ranges and leave off the general in the 150-170 and 450 - 470 MHz range operation.

If the general band in 800Mhz causes issues , please provide a list of frequencies we can use there

Regards

Dave Case
