

Colorado Space Grant Consortium

Providing Colorado students with experiences in space to prepare them for NASA's future space programs.

March 13, 2013 Lead Institution:

University of Colorado at Boulder

520 UCB

TO WHOM IT MAY CONCERN: Boulder, CO 80309

(303) 492-3141

Affiliate Institutions: **Adams State College** Alamosa, CO 81102

(719) 587-7616

(303) 273-3592

Colorado School of Mines 1500 Illinois Ave Golden, CO 80401

Colorado State University Fort Collins, CO 80523 (970) 491-2813

2200 Bonforte Blvd. Pueblo, CO 81001-4901 (719) 549-2884

> Fort Lewis College 1000 Rim Drive Durango, CO 81301 (970) 247-7663

Mesa State College 1100 North Ave. Grand Junction, CO 81501 (970) 248-1407

Metropolitan State College

Campus Box 29 PO BOX 173362

Denver, CO 80217-3362

Pikes Peak Community College 5675 S. Academy Blvd. Colorado Springs, CO 80906 (719) 502-3346

> 310 S. 14th Street ACØRY Colorado Springs, CO 80904 (719) 576-8000

University of Colorado at Colorado Springs 1420 Austin Bluffs Pkwy. UH3/MAE Colorado Springs, CO 80933-7150 (719) 262-3353

University of Northern Colorado 49 Ross Hall Greeley, CO 80639 (970) 351-2174

> Western State College Gunnison, CO 81231 (970) 943-2044

The Colorado Space Grant Consortium (COSGC) was granted an experimental license (WE2XMS) for the following frequencies: 144-146MHz and 435-440MHz. We are seeking to continue use of these frequencies and the Waiver of the reapplication fee. The Colorado Space Grant Consortium is based at the University of Colorado at

Boulder and our mission is education and workforce development.

The Colorado Space Grant Consortium (COSGC) is a 17 member statewide program and is part of the NASA's national Space Grant program. The national 52-member Space Grant program supports undergraduate and graduate students in over 900 higher Colorado State University - Pueblo education institutions in the areas of research, hands-on engineering, and public outreach in support of NASA's workforce development goals. COSGC is headquartered at the University of Colorado at Boulder. COSGC's vision is to provide a diverse group of Colorado students with experiences to prepare them for our Nation's future space programs. COSGC uses the excitement of our Nation's aeronautics and space program to inspire, educate, and develop America's future technological workforce by enabling a diverse community of college and university students to participate in space-based hands-on projects, and public service activities. COSGC is an interdisciplinary center incorporating students from the majority of the Departments from the College of Engineering and students from across the university.
