Hello Kyle

Thanks for the NOAA letters. I see the uploaded copy and deleted the duplicates.

I see the last correspondence to Filipe but do not think I got a response to the items.

1. Any IARU coordination efforts
2. Signed copy of the ODAR
3. An updated spacecap file responding to the issues identified in the correspondence. A copy is attached.
- 4.

Is Filipe still the point of contact? If not, you should make sure the contact information in the application is up to date.

Thanks
Tony

Hello,

Following up from my previous email: is there any other information I can provide about our application? We have received our NOAA Remote Sensing License, attached.

Thank you,

Kyle

I am emailing regarding FCC file number 0064-EX-CN-2016, the Cislunar Explorers application. Last fall Anthony Serafini (Anthony.Serafini@fcc.gov) sent us an email saying:

"You will also need to send us a copy of a NOAA license for the cameras on the satellite."

We have recently obtained this license and I have attached it along with the approval letter.

Is there any other information I can provide re:our application?

Thanks,

Kyle
