Message:

The explanation of connecting wires simple is shown in the following in the beginning.

Vehicle where wireless (transmitter) was installed.

? Data (information at the acceleration and the speed, etc.) is transmitted.

? wireless radio?

? Data is received/ Vehicle where wireless (receiver) was installed.

Information on the vehicle where data was transmitted is presented in the vehicle where data was received with HMI.

Please teach the method of offering the file of the chart of connecting wires.

The above is simple flow.

Please teach the method of offering the file of the chart of connecting wires when there is lack.
