Message:

Dear Mr. Nimesh,

Thank you for your email.

>You have an existing license for callsign WF2XSJ, file number 0369-EX-CR-2017.
>How is this application different? Is this a duplicate and can be dismissed?

This is an application for our new model radar sensor. The purpose and location is almost same as previous one (0369-EX-CR-2017). But the radar hardware, modulation scheme and some parameters like power level has been changed.

So we believe we have to submit application again.

Please let me know if I need to provide additional information for this application.

Best regards,

Jin Kurumisawa
