

EXHIBIT ONE

DRS Sustainment Systems, Inc. (“DRS”) requests Special Temporary Authority (“STA”) in order to conduct system level testing under Classified Government Contract W56HZV-18-C-0131, to support an Active Protection System (“APS”) Urgent Material Release (“UMR”) and to support a First Unit Equipped (“FUE”) of an Armored Brigade Combat Team (“ABCT”) of M1A2 SEPv2 Abrams tanks. DRS is supporting General Dynamics Land Systems (“General Dynamics”), which had been conducting tests under Classified Government Contract W56HZV-17-C-0067, under Call Sign WJ2XTH, File No. 0738-EX-CN-2018. DRS is requesting authority to conduct the same tests at its location in St. Louis, MO, per General Dynamic’s request.

The STA requested by DRS would authorize technical facilities that are identical to those granted in File No. 0738-EX-CN-2018, except for location. DRS requests the same classified treatment of technical information as was accorded to General Dynamics in File No. 0738-EX-CN-2018, and respectfully requests that the Commission incorporate that classified technical information submitted for File No. 0738-EX-CN-2018 into its consideration of the subject STA application as fully as if the same was submitted by DRS. In support of its request for classified treatment, General Dynamics submitted a classified document, LS2018-16951-00, which DRS also requests to be incorporated by reference herein to the extent the Commission deems necessary.

Due to the extremely classified nature of the contract and the systems being tested, DRS does not currently have the frequency band ERP, emission designator or modulating signal information, which will be made available to it on a need-to-know basis. Because this information is already in the Commission’s possession in connection with File No. 0738-EX-CN-2018, DRS respectfully submits that the subject STA request can be processed without resubmission of that information by DRS, and that the public interest would best be served by limiting the distribution of information which could, if publicly disclosed, seriously harm U.S. national security.

The person at DRS responsible for conducting the tests is:

Christopher Lemanski  
201 Evans Lane  
St. Louis, MO 63121  
Tel.: (314)-610-5897  
Email Address: Christopher.lemanski@drs.com

Contact information for the Government's point of contact under the subject contract is:

MAJ Daniel Groller

Tel.: (586) 282-9304

Email Address: [daniel.c.groller.mil@mail.mil](mailto:daniel.c.groller.mil@mail.mil)
