Subject: Request for Info - File # 0863-EX-ST-2021

Message:

The subject STA request, File No. 0863-EX-ST-2021, has been amended per the correspondence to select a later start date. The narratives in the STA have also been modified to clarify that it is currently anticipated that testing will be completed this summer, and reiterate that the failure to complete testing in the prior term was due to the inability of certain necessary personnel, based in the UK, be present for some of the testing during the prior term due to COVID-related travel restrictions. It is currently anticipated that those persons will be in the US and on-site by June 28th; we therefore respectfully request a grant prior to that date. If you have any questions or require additional information, please call Chris McLaughlin at 202-714-1328 or email at czm@commlawgroup.com. Thank you!
