Subject: FCC file number 0224-EX-PL-2007

Message:

Mr. Bruno Haineault,

Please provide the description of the operation to be conducted and its purpose in more details.

Are you sure these frequencies are correct? I see a range from 155 kHz to 27.4036 GHz which is more than the typical land mobile band we currently license. The exhibit only mentions HF, VHF and UHF.

Also, is the ERP correct? Up to 4000 watts is huge.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of December 07, 2007 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
