To: Jose Trevino

Date: August 20, 2008

Subject: FCC file number 0302-EX-ST-2008

---

Message:

For the reasons set forth below, we believe that the dismissal without prejudice of the STA application (File No. 0302-EX-ST-2008) of Datron World Communications, Inc (hereafter "Datron" or "applicant") on July 21, was in error and that the application should be reinstated.

On June 18, 2008, Jose Trevino sent correspondence to the applicant for the above-referenced application requesting additional information and clarification with respect to that application. On June 19, 2008, undersigned counsel for applicant filed a reply to Mr. Trevino using the ELS correspondence system. In that reply, counsel indicated that the application had not yet been completed, but that when it was completed and in final form the application would contain the requested information. On that same date, the applicant filed Form 159 with the necessary filing fee (paid by credit card). On the following day, the applicant took the necessary steps in the ELS to "complete" the application.

The completed application provided the requested information. First, it provided the additional detail about the application that had been requested. Second, the requested frequencies were modified and no longer included the frequencies for which Mr. Trevino stated that the ERP was "too big."

On July 21, 2008, James Burtle dismissed the application without prejudice. The letter of dismissal stated that the reason for the dismissal was the failure to respond to the June 18, 2008, correspondence of Jose Trevino within thirty days. Indeed, applicant's counsel had used the ELS system to reply to Mr. Trevino on June 19. Further, shortly thereafter, and within the thirty-day period, the application was completed and the completed version addressed all the issues raised by Mr. Trevino.

Accordingly, Datron respectfully requests that the application be reinstated, reviewed and granted.

Respectfully submitted,

Robert Clifton Burns
