

**Dorna Sports, S.L.**  
**STA Application**  
**0687-EX-ST-2015**  
**Frequency Coordination Exhibit**  
**Indianapolis, Indiana MotoGP Grand Prix Motorcycle Race**  
**August 2, 2015 through August 10, 2015**

This application proposes the short-term use of unused television broadcast channels; amateur radio and land mobile radio channels, broadcast auxiliary and other microwave channels in the limited area of the Indianapolis Motor Speedway racing course in Indianapolis, IN for a limited time in August of this year. The purpose of this use is for two-way operational and race team communications, security communications, video production and wireless microphones during the international MotoGP Grand Prix Motorcycle race event and for testing and race qualifications prior to the race event. The applicant will coordinate with the SBE frequency coordinator for the Indianapolis market and will make no use of channels in use by on-air television stations or low-power television stations on the subject channels within a 50 km radius of the proposed operation area. However, should any television broadcast station report interference during the proposed operations, operation on that channel will immediately cease and not resume unless and until the interference complaint is resolved.

**The stop-buzzer contact for this proposed operation is Mr. David Fort, who will be on-site at all relevant times. Mr. Fort's mobile telephone number is 317-225-8114.**

The application also proposes the use of land mobile and Amateur Radio frequencies for international race team operations, for video production and for telemetry. The use of amateur allocations in this STA application have been coordinated with the American Radio Relay League, Incorporated and the local amateur radio frequency coordinator, the Indiana Repeater Council. Land mobile channels in the 450-470 MHz band to be utilized during the race event have been investigated and monitored by Dorna Sports, S.L. technical staff and independent contractors and found to be unoccupied. Frequency coordinator David Fort and Mr. Michel Aran of Dorna Sports, S.L. will be on site during the race and channel monitoring and on-site frequency coordination will ensure against any interference. Given the location of these events, it is anticipated that no interference will be caused to any Amateur Radio, land mobile or broadcast auxiliary operations. No use will be made of Upon receipt of any complaint of interference from a licensed Amateur Radio user, land mobile licensee or broadcast entity (or otherwise), operation pursuant to this STA will cease on the channel complained about, and will not resume unless and until the interference complaint is resolved satisfactorily to the licensee.

The same policy will apply to any use of the 410-420 MHz and 2200-2290 MHz channels. With respect to the 2200-2290 MHz band, this was approved for use at this same venue in 2014 for an identical motorcycle race without any interference

whatsoever. This band will be used only for video transmission. This STA application is virtually identical to that applied for and granted to Circuit of the Americas for an identical motorcycle race in 0242-EX-ST-2013.

***This STA application is virtually identical to that granted to this applicant for this same event at this same venue in 2013 and 2014. See, WG9XUW, file nos. 0617-EX-ST-2013 and 0597-EX-ST-2014.***

Communications on site, and all stop buzzer contacts should be directed to Mr. David Fort at 317-225-8114. Other communications can be directed to the office of counsel for Dorna Sports, S.L.:
