

PUBLIC INTEREST STATEMENT

Introduction

By the instant application (“Application”), Dynetics, Inc. (“Dynetics”) requests that the Commission grant a 1 year conventional experimental license to permit Dynetics to operate the facilities (the “Facilities”) specified in the instant Form 442.

Purpose and Nature of the Operation

Dynetics, headquartered in Huntsville, Alabama, delivers high-quality, high-value engineering, scientific, and information technology (IT) solutions to customers within the U.S. government and a range of other market segments. Dynetics provides complete lifecycle analysis, engineering, and hardware, to support customer missions.

The requested license is a continuation of the operations previously authorized under STA under call sign WQ9XEA.

Interference Mitigation

Dynetics is well aware of its obligations under Part 5 of the Commission’s rules to avoid interference to co-channel licensees in non-experimental services, and will take all steps to ensure compliance with this obligation. Accordingly, this is to confirm that Dynetics stands ready to work with the FAA or other stakeholders to identify any reasonable restrictions for the system. Furthermore, Dynetics has already filed with the FAA for approval to conduct this test.

Stop Buzzers

Dynetics advises that the following will be available by wireless (cellular) telephone and will act as “stop buzzers” if any issues regarding interference arise during testing:

Primary: 256 509 5187 – Drew Williams
Secondary: 256-684-4908 – John Wade

For the foregoing reasons, Dynetics respectfully submits that approval of this Application is in the public interest, convenience and necessity.
