Dear Ed,

I want to take the opportunity to thank you for your outstanding work at the Navy Dallas Air Show on 19-20 October 1991. The event broadcast gave an added dimension to the air show and received many favorable comments. The speaker system you tested was superb. The quality of the sound and the flexibility to move the wireless speakers easily make the system a natural for air shows or any outdoor event.

The interviews with static display pilots and performers and the information tapes on the aircraft were educational and interesting. It was a great way to entertain our early arriving spectators. The combination of event broadcast, quality public address system, and a complete entertainment package is something any air show director should consider.

I was very impressed with the professionalism of you and your staff. You exceeded my expectations, and I believe you have a fine product to offer the air show industry. Good luck in the future.

Sincerely,

A handwritten signature in cursive script that reads "John Peck".

J. P. PECK
