Re: EastWest Communications, Inc.; Experimental Radio Service; One FCC
Form 442 Application Seeking to Modify the Facility Licensed Under
Experimental Call Sign KA2XZE

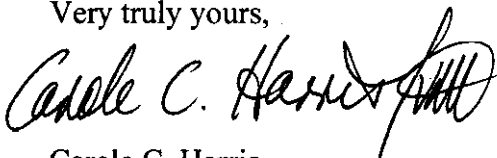

Dear Mr. Wright:

We are transmitting on behalf of our client EastWest Communications, Inc. (EastWest), is the above-captioned FCC Form 442 application seeking to modify the facility licensed under call sign KA2XZE. Specifically, the application seeks (1) to increase the output power from 40 watts to 500 watts and (2) to increase the effective radiated power (ERP) from 40 watts to 80 watts for frequency bands 535-1606.6 kHz and 85-108 MHz. Accompanying the application is an FCC Form 159 fee form and a check made payable to the Federal Communications Commission in the amount of \$45.00 to cover the filing fee.

We have enclosed a copy of the most current authorization for easy reference. Also attached to the application is an Exhibit A which addresses parts of questions 4, 10 and 14 on the application.

We trust the Commission will find the application package to be in order for review and processing. In the event that additional information is required, please communicate directly with the undersigned.

Very truly yours,

Carole C. Harris
