Subject: Request for Info - File # 0375-EX-PL-2015

---

Message:

Application Reference: 0375-EX-PL-2015

The referenced license application is not a duplicate of 0118-EX-ML-2015. Each application is for separate equipment with different technical characteristics. The MARS-K equipment (File 0118-EX-PL-2015) utilizes a wider bandwidth (66.5 MHz vs. 21.3 MHz) and different output power characteristics (40.3 kW vs. 50.84 kW) than the EL/M-2026 equipment.
