Mr. H. Franklin Wright
OET - RM 230
Federal Communications Commission
2000 M Street, NW
Washington, DC 20554

Dear Mr. Wright:

On February 17, 1995, Professional Licensing Consultants, Inc. prepared and filed FCC form 405 for renewal of Experimental Radio Station license KA2XNW on behalf of Ericsson GE Mobile Communications, Inc.

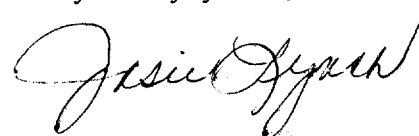

To date, we have not received evidence that this license was ever renewed by the FCC, however, our many conversations document the request was received and was in the process of being issued but the FCC's software problems in the new computer system had delayed the final issuance of the license.

Attached is FCC form 405 covering renewal of KA2XNW till 1999 since the current expiration date would have been March 1, 1997 had we actually received the previous renewal of KA2XNW from 3/1/95 through 3/1/97.

I realize there are still problems with the software which may delay this renewal from being issued, therefore, I am respectfully requesting a letter or some indication that the request was received and Ericsson GE Mobile Communications, Inc. is legal to continue the use of the license.

Thank you for your attention to this matter and the many courtesies you have extended to both Ericsson, Inc. and Ericsson GE.

Very truly yours,

J. A. (Josie) Lynch
Contract Licensing Rep
for Ericsson GE
