Subject: Request for Info - File # 0898-EX-CN-2020

Message:

Hi,

This is in response to the email I received regarding the incorrect values for power and ERP in my application and in my attachment.

The values have been updated correctly as shown:

Power = 19.95pW

ERP = 39.8pW

This is also reflected in the updated attachment: ESAero Exhibit for NTIA Redbook Section 8-3-27v4

If there is any other issued with the application please let me know.

Thank you,
Tony Cash
