## **Application Narrative for Proposed Equipment**

### **Proposed Program**

ESG Solutions is proposing GPS within their building for testing purposes.

### **Objectives**

We seek to accomplish the following objectives:

1. Illumination of the part of the lab facility, located at 10815 Woodedge Drive, Houston, TX with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within their geotechnical engineering devices to provide innovative applications and continue to provide safe products.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information
