

The purpose of this application is to gain approval to radiate from a land based production facility for integration testing and risk mitigation for the Coast Guard Offshore Patrol Cutter (OPC) Program's C4ISR suite. One ship-set of topside antennas will be mounted on the equivalent of the OPC mast. This contract required facility will be utilized to conduct End-To-End testing for several of the OPC circuits to include HF, VHF, UHF, L-Band, Ku, X and S band Radar, MILSATCOM, and Link 11/22 among others.

Eastern Shipbuilding Group's contract is to build 9 Cutters over the next 8 years.
