Subject: Additional Information Request

Message:

1) If you only require specific test frequencies, would it be possible to edit your application and request those frequencies? You could also request 9 test frequencies, 3 in each of lower mid and upper band to perform adequate testing. This shall make the NTIA coordination process easier. FCC shall not pick the frequencies for you. That is something you will have to do.

2) FCC doesn't typically grant 60 months license in HF Band. We normally do 24 months and you can apply for renewal after that.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of February 06, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
