**Subject:** Frequency Coordination Request Submitted

**\*\*EXTERNAL EMAIL\*\***

Dear Fernando Carrillo

Your Frequency Coordination Request has been successfully submitted to FAA Spectrum Engineering Services for review. The FAA's goal is to address your coordination requests within 30 calendar days. If you need to communicate with us, please use the following tracking number(s) for reference.

Tracking #	Specific Frequency	Lower Frequency	Upper Frequency	City	State
TRK 210101		5150 MHz	5250 MHz	GERMANTOWN	MD

Please note that due to spectrum congestion, the FAA cannot guarantee the availability of frequency assignments in spectrum allocated for aeronautical purposes in some geographical areas for experimental testing. We will keep you informed throughout the coordination process, as necessary.

Best regards,

FAA Spectrum Engineering Services
