Subject: 0004-EX-ST-2021 pre-coordination data request

---

Message:

The attached email correspondence from the FAA confirms that EchoStar Global, on January 19, 2021, submitted a frequency coordination request for its proposed operations in the 5150 &ndash; 5250 MHz band. EchoStar Global will update the FCC of any FAA objections received within the referenced 30-day period.
