

NARRATIVE STATEMENT

Pursuant to Section 5.3(j) and Section 5.61 of the FCC’s rules, Echodyne Corp. hereby respectfully requests an experimental license from August 21, 2020 to August 21, 2022 to operate in the 24.45-24.65 GHz band to test an experimental low-power version of its EchoGuard radar.

A. Purpose of Operation and Need for Special Temporary Authority:

Echodyne requests this experimental license to allow it to test a low-power version of its EchoGuard radar. The experimental license is for testing purposes only and not for permanent installation of the radars. The testing under this experimental license is related to radiolocation applications.

B. Location of Proposed Operation:

Echodyne proposes to test the radar at various fixed locations within the area described below.

Location	Coordinates (NAD83)	Radius of Operation
Howes, SD	44° 30' 14" N 102° 0' 25" W	30 km

C. Technical Specifications:

1. Frequencies Desired

Echodyne requests authorization to operate in the 24.45-24.65 GHz band.

2. Effective Radiated Power

The units to be deployed operate at a peak maximum transmitter power output of 0.32W, and a peak maximum effective radiated power of 24.6W. Operations will be conducted to comply with rules relating to human exposure to radiation.

3. Modulation and Emissions

The EchoGuard radar operates using linear FM modulation. The emission designator is 45M0FXN. The emissions will not extend beyond the frequency bands requested.

4. Antenna Information

No antennas will be mounted in a fashion that would require approval under FAA or FCC rules and regulations.

5. Equipment To Be Used

Echodyne will conduct the testing with a maximum of 13 units, which will be dispersed within the testing area.

D. Protection Against Causing Interference:

Echodyne has conducted a search of the FCC's Universal Licensing System database and determined that there are no licensed operations in the 24.45-24.65 GHz band. In the event that it receives a complaint of harmful interference from the proposed operation, Echodyne will take immediate action to address the interference. The company has designated Ms. Mo Swanson (contact information below) to act as the "stop buzzer" for this purpose.

E. Restrictions on Operation:

Echodyne recognizes that the operation of any equipment under experimental authority must not cause harmful interference to authorized facilities. Should interference occur, Echodyne will take immediate steps to resolve the interference, including discontinuing operations if necessary.

In addition, Echodyne will advise entities using the equipment that permission to operate has been granted under experimental authority issued to Echodyne, that such operation is strictly temporary, and that the equipment may not cause harmful interference.

F. Public Interest:

Grant of an authorization will permit Echodyne to refine its innovative radar equipment and enhance public safety.

G. Contact Information:

For questions, please contact:

Andrea Radosevich, General Counsel
Echodyne Corp.
12112 115th Ave NE
Kirkland, WA 98034
(206) 399-9793
andrea@echodyne.com

In the unlikely event interference concerns should arise during the period of authorization requested by this application, please contact the company's "Stop Buzzer" identified below:

Mo Swanson
Echodyne Corp.
(410) 812-6340
