Subject: FCC File # 0291-EX-ST-2008

---

Message:

Mr. Kennedy:

On behalf of Elster Integrated Solutions, LLC (?Elster?), we hereby further clarify Elster?s end-of-testing policies regarding retrieval of any uncertified devices and/or proper labeling of devices certified by the Federal Communications Commission during the pendency of the testing period. Specifically, we clarify that Elster will maintain sole responsibility for end-of-testing removal or relabeling of experimental devices and will not delegate its responsibility to the utility (Entergy) or the home owner. Elster reserves the right to hire a third party to perform the work under the supervision and control of Elster, with Elster remaining responsible for completion of the work. As described previously, Elster has appointed a named employee, Mr. Chris Kozlowski, who will retain ultimate responsibility for the retrieval and/or relabeling of devices after testing. Elster also wishes to clarify that should Mr. Kozlowski leave his current position, Elster will ensure that an appropriate Elster employee fulfills his obligations in retrieving uncertified devices or relabeling devices subsequently certified by the Commission.

Respectfully Submitted,

John S. Logan
