Subject: Request for Info - STA File #0053-EX-ST-2008

Message:

1. In response to the request for location of operation coordinates, the reason I did not provide data was because our application is for a mobile antenna mounted to a vehicle. When I checked off that the device was mobile, the questions that followed did not appear to be applicable.

I can certainly provide coordinates for the center of the AOA @ BOS; therefore, I will do so when I amend the application.

2. In response to the request for necessary bandwidth, I believe that was addressed by the necessary bandwidth submission attachment that was included with our application package.

I will review 47CFR2.202 again to see what else, if anything, is needed to address your request for additional information.

Regards,

Bernard Beck
