

Ericsson Inc.
FCC Form 442
Antenna Sketch Information

Exhibit 2

The instant application seeks authority for an experimental authorization to utilize three transmit sites. Two of the three transmit sites are located on top of buildings and the antenna structure does not exceed the top of the building by 6 meters. A third site is a tower, but as explained in the 442 Form, no FAA notification is necessary and the structure is smaller than other structures in the vicinity.
