Re: Modification to Ericsson's STAs for Queens, New York (0052-EX-ST-2007, 0125-EX-ST-2007) and Parsippany, New Jersey (0169-EX-ST-2007).

Dear Mr. Keltz:

Please be advised that Ericsson wishes to make the following modifications to its STAs for Queens, New York and Parsippany, New Jersey:

- 0052-EX-ST-2007 – Revise the authorized power for 1710 – 1715 MHz from 794 W to .25W;
- 0125-EX-ST-2007 – Delete 1715-1720 MHz from the application; and
- 0169-EX-ST-2007 – Delete 1715-1720 MHz from the application and revise the authorized power for 1710 – 1715 MHz from 794 W to .25W.

Pursuant to our conversation June 5, 2007, with respect to the above referenced STAs, Ericsson has ceased all radio transmissions authorized by these STAs and will not begin transmissions again on 1710 – 1715 MHz until further notice.

If you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "A. Ellis".

Allison M. Ellis, Esq.
Director, Regulatory Policy
