Let me try to clarify:

- 1) We are applying for multiple sites, so the mobiles radius is bigger than any of the given fixed sites. Let me know if we need to amend them to be tied to a given site
- 2) 10 - 20 handsets

Please let me know if we need to make any changes to the actual application, or if this email sufficiently answers your questions. Thanks,

1. In the Mobile Area of Operation field, you have entered "Within 80 KM of San Diego." However, in the Radius field, you have entered "30 km." Explain the discrepancy. 2. In the Equipment section of the application, you have listed Kyocera mobile handsets, but you have not indicated how many of them you will be using.
