

# Antenna Pattern Attachment - 0112-EX-CM-2021

Attached is the antenna pattern that we will use for AWS. The antenna direction that we have for the Wildflower location is 135 degrees azimuth.

The product specs of the antenna, NHH-65A-R5 is also attached.

The screenshot below shows the antenna pattern visually for 0 degree tilt.

## Horizontal Pattern, 2110MHz, 0 degree electrical tilt

## Vertical Pattern, 2110MHz, 0 degree electrical tilt
