File No. 0470-EX-ST-2019

The Commission has previously granted authorization for a very similar indoor, 5G demonstration at 39 GHz. *See* File No. 1730-EX-ST-2018. The major difference will be that we will be using a 400 MHz bandwidth. The max EIRP will be 19.95 W per 100 MHz bandwidth.
